Swimming Policy

During the summer months, school age children may have the opportunity to participate in swimming/water activities that exceeds 2 ½ feet of water in depth. Parents will be required to fill out a Swimming/Water Activity Permission Form indicating that their child has permission to participate, whether or not their child is a swimmer/non-swimmer and the location and date of the activity. All parents will be notified of the event prior to filling out the permission slip. The minimum staff ratio will be met on all field trips as set by the Ohio department of Job and Family Services. At least one staff member will be certified in CPR, First Aid, Recognition of Communicable Disease, and Recognition of Child Abuse. A first aid kit, permission slips as well as children's Emergency and Health Forms will be taken during the activity.
